vibration sensors for installation in nacelles; watt-hour meters; computers and computer software for use in monitoring, control and maintenance of wind turbines, wind power, hybrid power and other renewable energy power plants; meteorology instruments and substations and for use in the power generation industry; computer and computer software for supervisory control and data acquisition of wind power and power from other renewable energy sources, including collection, storage and intelligent processing of data from wind turbines, solar power generators and other renewable energy sources as well as wind power and hybrid power plants and for preparations of reports and communication and for exchange of data with external computers or units such as weather stations, other monitoring systems or electrical grids; application software in the form of apps for the use in connection with wind turbines, solar power generators and other renewable energy sources as well as wind power and hybrid power plants and other renewable energy power plants; systems for conversion of rotating power into electrical power; electric and electronic monitoring, control and operating apparatus and equipment, namely sensors, converters, measuring equipment, data collecting and transmission equipment and power supply equipment for use in remote monitoring and operation of wind turbines and solar power generators as well as hybrid power and other renewable energy power plants; parts and fittings for the above types of electric and electronic monitoring and operating apparatus and equipment; solar cells for electricity generation; cameras, for inspection of wind turbines, including of blades; apparatus and instruments for accumulating and storing electricity; apparatus and instruments for accumulating and storing energy; batteries, including lithium batteries; power modules; electronic control systems for wind power and hybrid power plants; computer hardware and software for the management of wind power, hybrid power and other renewable energy power plants; sensors and detectors, including for the detection and monitoring of ice formation on wind turbines, wind power plants and other wind-operated machines; electronic control systems for ice detecting and ice removing systems in relation to wind turbines, wind power plants and other wind-operated machines; electronic equipment and software for the management of ice detecting and ice removing systems for wind turbines, wind power plants and other wind-operated machines; energy regulators; flow measuring apparatus, including flow measuring apparatus for use in connection with wind turbines; flow control installations (electric), including flow control installations used in connection with wind turbines; electric and electronic apparatus and instruments for collision avoidance and collision warnings; radars, including 3D radars, and sensors, to be mounted among other things on wind turbines, towers, buildings and power lines and with the purpose of detecting approaching aircrafts, and to activate collision warning alerts; warning devices, including strobe lights and radios; fire-extinguishing systems, including fire extinguishing systems for wind turbines; safety apparatus, including safety apparatus for wind turbines; lifesaving equipment; parts, accessories and fittings for all the aforesaid goods, data loggers; electrical and electronic apparatus for logging data; solar energy collectors for the production of electricity.

Cl.11;Apparatus and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating, water supply and sanitary purposes; refrigerating appliances and installations; refrigerating containers; regulating accessories for water or gas apparatus and pipes; regulating and safety accessories for gas pipes; regulating and safety accessories for water apparatus; regulating and safety accessories for gas apparatus; all of the aforesaid limited to the fields of shipping, transportation, logistics and energy production.

Cl.12;Vehicles; apparatus for locomotion by land, air or water; oil tankers; towing boats and tug boats; drones.

Cl.35;Advertising; business management; business administration; office functions; all of the aforesaid limited to the fields of shipping, transportation, logistics and energy production; administrative services relating to issuance of transportation and customs documents, certificates and certificate documents for securities of goods; administrative services in relation to customs clearance; business administration services in the fields of transportation and freight logistics; information and data compiling and analyzing relating to business management; compiling and analyzing statistics, data and other sources of information for business purposes; administration of data and online data; online customer relationship management; business assistance in connection with CRM; business assistance in connection with franchising; business management services in the field of freight logistics; business networking; supply chain management; economic forecasting; business assistance, business management and business organisation consultancy for industrial companies in the field of logistics and engineering for offshore, towing and freight operations; market research and efficiency experts in the offshore, towing and freight fields; employment agency services relating to temporary and permanent placement of personnel; personnel selection using skill testing; consultancy (personnel management consultancy); personnel selection and testing by means of technical processes, personnel recruitment; services and employment agency services for temporary, short-term and permanent personnel; providing qualified personnel on a temporary and contract basis; experts' reports in the field of personnel management; employment agency and personnel selection using behavioural testing; inventory management of commodity; retail and wholesale services connected with spare parts and services for wind turbines, including on-line retail and wholesale services connected with spare parts and services for wind turbines; retail and wholesale services connected with spare parts and services for solar power generators, solar power plants and hybrid power plants, including on-line retail and wholesale services connected with spare parts for solar power generators, solar power plants and hybrid power plants; the bringing together, for the benefit of others, of a variety of services in relation to wind turbines, solar power generators, solar power plants and hybrid power plants, enabling customers to conveniently compare and purchase those services; collection of data, including collection of data from renewable energy plants such as plants generating electricity from solar energy, wind energy, including kite energy solutions, geothermal energy, wave energy, sustainable hydro energy, sustainable biomass energy and tidal energy; life cycle costing and computerized stock control of wind power systems, including wind turbines; data entry and data processing, including retrieval and processing of data and date relating to operating

experience in respect of and from wind power systems, including preparation of operation and production statistics and preparation of plans for maintenance and diagnosis of errors; data compilation for others; updating and maintenance of data in computer databases; compilation of data into computer databases; business administration and management of energy projects, including wind power projects and projects concerning other renewable energy sources; business management of wind power, hybrid power and other renewable energy systems during their life cycle; collection and processing of data relating to operation experiences in respect of wind power, hybrid power and other renewable energy systems, including compilation of operation and production statistics; management of stocks, cost price analysis and invoicing services in the field of logistics, shipments, transport, monitoring, storage and warehousing of goods and passengers; compilation of statistics in the field of logistics, shipments, transport, monitoring, storage and warehousing of goods and passengers; collection of information relating to meteorology and climatology; maintenance of data in computer databases; consultancy and advisory services relating to the above mentioned services.

Cl.36;Insurance; financial affairs; monetary affairs; real estate affairs; arrangement of cargo insurance; electronic funds transfer; electronic funds transfer for others; financial information; online banking services and financial services; credit card services; processing and transmission of bills and payments thereof, and providing insurance for financial transactions; funds transfer services; transmission of funds by electronic means for others; transfer of payments for others via the internet; financial services in the nature of billing and payment processing services; financial services provided by telecommunication means; payment administration services; card payment processing services; payment transaction card services; issuance of customer loyalty discount cards; financial transaction management; credit card transaction processing services, namely facilitating credit card, debit card and electronic check transactions of others over the internet and over terminals and servers in a local area network; issue of tokens of value in the nature of certificates and trading stamps for goods; financial customs brokerage services, including financial customs brokerage services in relation to import and export; issue of tokens of value in the nature of export certificates; financial services, namely, issuance and management of certificates relating to security for goods, customs, logistics and/or transportation activities; issuing of securities for goods; financial forecasting; financial transactions via blockchain; financial sponsoring.

Cl.37;Oil well drilling; oil and gas extraction; construction, installation and repair of oil and gas production units; laying of subsea cables; offshore construction and installation services; providing of information in relation to naval construction and the building of boats and offshore platforms; under water construction; harbour construction; drilling of wells; installation, maintenance and repair of offshore platforms, boats and machines; construction and installation of offshore boats, ships and structures; vehicle repair services; shipbuilding; construction work services using cranes and pulleys; installation of cranes; installation work, including for the offshore industry; reconditioning in the form of protection of repairs of engine rooms and cargos (directed towards goods and material); building; construction, installation, demolition, renovation, refurbishment services; offshore and subsea building, construction, installation, demolition, renovation, refurbishment services; pipeline laying services; installation services in the nature of marine lifting services; installation services in the nature of lowering of pipelines, drilling rigs, oil and gas exploration and production apparatus and equipment; installation, construction and laying of pipelines; installation and construction of shore-based facilities for use in offshore oil and gas production; construction, installation, inspection prior to maintenance and repair, maintenance, refurbishment, modification, cleaning, servicing and repair services relating to apparatus and equipment for the extraction, conveyance, storage, refining and processing of oil and gas, offshore and subsea structures, drilling rigs, fixed platforms, floating platforms, pipelines, oil and gas production apparatus, umbilicals, risers, flowlines and energy generation equipment and installations; seabed excavation and dredging services; oil and gas pumping; construction management and supervision services; rental, hiring and leasing of construction tools and equipment; rental, hiring and leasing of tools, machines and apparatus for the extraction of oil and gas; servicing of watercraft, ships, submersible vehicles, autonomous underwater vehicles, remotely operated vehicles and diving equipment; information, advisory and consultancy services relating to all the aforesaid; marine construction, installation, maintenance and repair in the offshore, towing and freight fields, namely building, maintenance and repair of ships and boats; rental, installation, maintenance and repair of marine construction machines; construction, installation, maintenance and repair of oil rigs; installation and repair of fire alarm devices; installation and repair of pollution alert devices; subsea and underwater construction, installation, repair, maintenance and dismantling services for pipelines, drilling rigs, well equipment, facilities and operations for the oil and gas and renewable energy industries worldwide; onsite project management in relation to subsea construction, installation and repair services; erection, construction, installation, service, maintenance, repair, upgrade and replacement of wind power, hybrid power and other renewable energy power systems, including erection, construction, installation, service, maintenance, repair, upgrade and replacement of power supply units for wind turbines, solar cells, solar power generators, wind power plants and hybrid power plants as well as of parts and accessories of wind turbines and wind power and hybrid power plants; upgrading of the structural parts of wind turbines; inspection and control services prior to maintenance and repair of blades for wind turbines, both inside and outside, and of the parts and components forming or included in a blade for a wind turbine; service, repair and maintenance of systems to protect a wind turbine and especially its blades from strokes of lightning; advisory and information services relating to maintenance of wind turbine blades in order to ensure wind turbines blades optimal operation and yield, including providing information relating to servicing and repair of blades of wind turbines; installation, maintenance and repair of ice detecting and ice removing systems and of apparatus and instruments for collision avoidance and collision warnings, including systems comprising of radars, sensors, radios and strobe lights; consultancy concerning erection, construction, installation, service, maintenance and repair of wind power and other renewable energy power systems, including in respect of wind turbines, wind power plants and hybrid power plants as well as of parts and accessories thereto; installation, repair, maintenance, overhaul and upgrading of computer hardware for use in connection with the operation of wind turbines and wind power plants; installation, repair, maintenance, overhaul and upgrading of security and safety equipment for use in connection with wind turbines and wind power plants; consultancy and advisory services relating to the above mentioned services.

Cl.38;Telecommunications; data communication and telecommunication services; transmission and transfer of images, information and e-mails via the data, cellular and telecommunication network; providing user access to a global computer network for tracking and tracing the transportation and delivery of goods; message sending; communications by computer terminals; electronic bulletin board services [telecommunications services]; providing telecommunications connections to a global computer network; providing user access to global computer networks; providing internet chatrooms; providing access to databases; providing online forums; streaming of data; transmission of digital files; operation of electronic communication systems; providing access to platforms and portals on the Internet; exchanges of computer data.

Cl.39;Transport; packaging and storage of goods; travel arrangement; container transport; shipping agency services; shipping agency services in the nature of providing transport assistance in the preparation of documents relating to

customs clearance; delivery and transport of packages and shipments; delivery of goods by road, railway, air and sea; arranging for the transportation of goods by road, railway, air and sea; stevedoring (cargo loading and unloading), freight forwarding; container rental; information regarding shipment and transportation and storage; transportation logistics services; logistics services relating to shipment and transportation and storage; operation of container terminals, air cargo terminals and ports; transport, including marine transport, railway and truck transport, air transport, transport of oils and gases by pipeline; delivery of goods; towing, salvaging; refloating of ships, transport of crew, bunker recovery and removal (transport), cargo recovery and removal (transport), salvage and wreck removal (transport) consultancy, emergency and salvage response (transport), underwater salvage, wreck removal (transport), rescue operations (transport), project management, namely in relation to transport in connection with salvage operations (directed towards persons, goods and material); ship brokerage services, air freight brokerage services, transport brokerage; chartering; leasing of aircrafts; transport related logistics services by aid of computers; operation of ports; warehouse and store room rental; localization of goods by computer; freight brokerage services; localization and tracking of shipments; cargo tracking services; localization of freight and goods via computer; transportation and storage of goods, including logistics services by aid of computers, transmission and transfer of images, information and e-mails via the data, cellular and telecommunication network; advisory and consultancy services relating to all the aforesaid services; providing online information relating to tracking of goods, transportation and delivery of goods by various means of transport via a computer database; distribution of energy; navigation services; bunkering of fuel for ships; bunkering of oil and fuel; marina services [berthing, mooring, storage]; ship chartering; rental and leasing of watercraft; rental and leasing of watercraft for surveying, construction, inspection, maintenance, repair, pipe laying, cable laying, lifting, lowering, transportation, diving, accommodation and trenching; piloting of watercraft, ships, autonomous underwater vehicles, remotely operated vehicles and remotely operated robots; transportation of offshore and subsea structures, equipment and apparatus, including drilling rigs, fixed platforms, floating platforms, pipelines, submersible vehicles, oil and gas exploration and production apparatus and instruments, as well as energy generation and distribution equipment and installations; information, advisory and consultancy services relating to all the aforesaid; issuing of transport tickets and providing information relating to import and export cargo handling services; rental in the offshore, towing and freight fields, namely rental of ships and boats; arrangement of passenger transport, transport and escorting of passengers; organisation, escorting and transport of personnel to oil sites; providing underwater transport services and rental of underwater vehicles; freighting; anchoring and disanchoring of drilling apparatus; transport of oil rig equipment and provisions; rental of ships, boats, bulk carriers; rental of warehouses; sea rescue and rescue operations (transport), towing to loading buoys (tug boats); subsea remotely operated vehicle (ROV) and marine support vessel services namely, rental and leasing of remotely operated vehicles, marine support vessels and equipment to support subsea operations for the oil and gas and renewable energy industries worldwide through the operation of its fleet of remotely operated vehicles and marine support vessels; transportation logistics services, namely, arranging the transportation of goods for others; transportation logistics services, namely, planning and scheduling shipments for users of transportation services; transport brokerage; rental, hiring and leasing of tools, machines and apparatus for transport and storage of oil and gas; underwater commercial diving services.

Cl.40;Processing and refining of oil and gas, combating oil pollution; welding services; subsea welding services; coating and protection of subsea structures and pipelines; underwater processing and refining of oil and gas; information, advisory and consultancy services relating to all the aforesaid; all of the aforesaid limited to the fields of shipping, transportation, logistics and energy production.

Cl.41;Education; providing of training; entertainment; sporting and cultural activities; all the aforesaid limited to the fields of shipping, transportation, energy and wind, oil and gas, safety and security.

Cl.42;Scientific and technological services and research and design relating thereto; industrial analysis and industrial research services; all of the aforesaid limited to the fields of shipping, transportation, logistics and energy production; design and development of computer hardware and software; geological surveys; geological prospecting; providing temporary use of non-downloadable computer software for shipment processing over computer networks, intranets and the internet; providing non-downloadable computer software for supply chain management; design and development of computer software for customer relation management (CRM); hosting of internet platforms for digital online services, information services, data storage services or communications services; electronic data storage; provision of technological consultancy relating to dispatch and route plans for forwarding goods; provision of technological consultancy relating to management of stocks of goods; computer engineering and design, development, maintenance and updating of computer software relating to logistics, shipments, transport, monitoring, storage and warehousing of goods and passengers; design and development of databases relating to logistics, shipments, transport, monitoring, storage and warehousing of goods and passengers; analysis and surveying of oil deposits; analysis of oil soakings; transportation and logistics management system, namely, providing use of non-downloadable software for arranging the transportation and delivery of goods for others; providing online non-downloadable software for freight forwarding and freight brokering relating to the transportation of goods by various means of transport, and for freight logistics management; consultancy in relation to design and development of computer hardware; updating of computer software; maintenance of computer software; computer system analysis; computer software consultancy; software as a service [SaaS]; information technology [IT] consultancy; providing information on computer technology and programming via a web site; cloud computing; conversion of computer programs and data, other than physical conversion; data security consultancy; data encryption services; monitoring of computer systems for detecting unauthorized access or data breach; development of computer platforms; hosting of computer platforms; professional consultancy relating to marine technology; platforms for artificial intelligence as software as a service [SaaS]; software as a service [SaaS] featuring software for machine learning; data storage via blockchain; deepsea mining exploration services; engineering services; engineering design and project management services; engineering testing services; engineering services relating to offshore and subsea structures, equipment and apparatus, pipelines and the exploration, extraction, processing, storage and conveyancing of oil and gas; offshore and subsea engineering services; engineering feasibility studies; engineering, scientific, technological, research and design services relating to energy generation and supply services; scientific, technological, research and design services relating to the extraction, conveyance, storage, refining and processing of oil and gas, as well as subsea installations; surveying services; conducting engineering surveys; oil field surveying and inspection; providing technological consultancy relating to oil field life extension services; monitoring of performance and condition of off shore and subsea installations; geophysical and geological surveys services; testing services in relation to the placement of subsea infrastructures, pipelines and oil and gas extraction equipment; underwater exploration; measurement services; geological and oil prospecting; provision of engineering reports; construction design; scientific, engineering and environmental research and development services; diving and underwater engineering services; information, advisory and consultancy services relating to all the aforesaid; subsea and underwater engineering services

relating to monitoring, inspection and support for pipelines, drilling rigs, well equipment, facilities and operations for the oil and gas and renewable energy industries worldwide; consulting services relating to monitoring and inspection of pipelines, drilling rigs, well equipment, facilities and operations for the oil and gas and renewable energy industries worldwide; consulting services relating to the design and development of pipelines, drilling rigs, well equipment, facilities and operations for the oil and gas and renewable energy industries worldwide; subsea and underwater survey services for pipelines, drilling rigs, well equipment, facilities and operations for the oil and gas and renewable energy industries worldwide; subsea monitoring and inspection services; technological assistance concerning wind turbines, wind power, hybrid power and other renewable energy power projects; consultancy and assistance concerning planning and development of energy projects, including wind turbine, wind power plant and hybrid power plant projects; technical analysis and quality assessment of specific wind farm projects; technical research services regarding optimal energy production, grid integration and long-term operating solutions; preparation of topographical maps and descriptions regarding optimized turbine selection and placement of wind turbines within a certain geographical area; meteorological information, including climate, weather and wind analyses and calculations; technological assistance and consultancy regarding choice of wind turbine and micrositing of wind turbines for a specific wind energy project; development and testing of wind power, hybrid power and other renewable energy power systems, including wind turbines and wind power plants and components thereto; effecting research projects; development of new products and concepts with respect to wind turbines, wind power plants and other renewable energy power plants, including plants generating electricity from solar energy, wind energy, including kite energy solutions, geothermal energy, wave energy, sustainable hydro energy, sustainable biomass energy and tidal energy; quality monitoring and control of wind turbines and wind power plants and other renewable energy power plants, including remote quality monitoring and control of wind turbines and wind power plants and other renewable energy power plants; research in connection with and development of equipment for wind turbines, wind power and hybrid power plants; installation, implementation, customization and updating of software, including for the use in connection with wind turbines, wind power and hybrid power plants and other renewable energy power plants; scientific and technological services, including providing forecasts in connection with production of wind energy, including forecasts relating to the quantity of generated energy; analysis of technical data, including analysis of data for use in connection with forecasting in connection with production of wind energy; providing of technical information and data relating to conditions relating to the production of wind energy; industry analysis and research services; meteorological research; climatological research; meteorological information, including climate, weather and wind analysis, including meteorological forecasts; climatological forecasts; electronic storage of data; database development services; preparation of technical reports, including forecasting relating to the quantity of generated energy; provision of scientific surveys; technological assessment and analysis of wind power, hybrid power and other renewable energy power plants, including analysis of loads, electrical infrastructure and performance of the wind turbines and wind power plants; technological assistance concerning wind power, solar power, hybrid power and other renewable energy power projects and effecting such projects; research, development and design of computer software and systems for supervisory control and acquisition and treatment of data from wind turbines and wind power plants as well as for plants for other renewable energy sources; environmental monitoring services in the field of oil pollution detection in the sea; consultancy and advisory services relating to the above mentioned services.

Cl.45;Legal services; security services for the physical protection of tangible property and individuals; personal and social services rendered by others to meet the needs of individuals; coast and oilfield security patrol for the protection of persons, goods and material.
