Cl.1;Industrial minerals; processed minerals; processed hematite minerals; processed magnetite minerals; chemicals and chemical additives for use in industry, science, manufacture and research; cobalt chemicals; cobalt chemicals produced by renewable energy; lithium; lithium produced by renewable energy; chemical products for use in industry, science, manufacture and research; chemical preparations and substances for use in industry, science, manufacture and research; chemical preparations for decarbonising engines; ammonia and ammonia additives and hydrogen and hydrogen additives for use in industry, science, manufacture and research; ammonia and hydrogen products, preparations and substances for use in industry, science, manufacture and research; hydrogen; hydrogen chemical preparations and substances; hydrogen produced by renewable energy sources; hydrogen gas; liquid hydrogen; dissolved hydrogen; mixtures of gas, liquid and dissolved hydrogen for use in industry, research and science; graphite; synthetic graphite; graphite for industrial use; chemical reagents or mixtures, other than for medical or veterinary purposes; ammonia; ammonia (volatile alkali) for industrial purposes; volatile alkali (ammonia) for industrial purposes; ammonia for industrial purposes; ammonia produced by renewable energy sources; ammonia water; aqueous ammonia for industrial purposes; anhydrous ammonia; ammonia alum; ammonia and ammonia produced by renewable energy sources for use in industrial processes, including industrial processes that make nitrogen based fertilisers, dye, pharmaceuticals, chemicals, metal ores, iron and steel; ammonia and ammonia produced by renewable energy sources for use for the manufacture of refrigerants, cleaning products, including household cleaning products, plastics, rubbers, explosives, textiles, pesticides and cosmetic products; ammonia and ammonia produced by renewable energy sources for purification treatments of water supplies and wastewater treatments; chemical water testing and treatment preparations; hydrocarbons; hydrocarbon compounds; gaseous hydrocarbons; gaseous hydrocarbon compounds; graphene; graphene for industrial use; carbon for industrial use; catalysts for the production of hydrogen; iron oxides, phosphates and salts used in industry; iron oxide; gases for industrial use or laboratory use, other than for medical use; gas mixtures for use in science; gas purifying preparations and substances; inert gases for industrial and scientific use; liquefied gases, for use in industry, research and science, other than for medical use; magnesium chloride for use in industry, science, manufacture and research; magnesium oxide for use in industry, science, manufacture and research; cement (adhesives); cement (metallurgy); chemical mixtures for use as additives and agglutinants for concrete; chemical mixtures for use as additives and agglutinants for cement and concrete mixtures produced by renewable energy sources; cement and concrete preservatives, except paints and oils; cement and concrete waterproofing chemicals, except paint; chemical additives for cement and concrete; chemical compositions for hardening cement and concrete; chemical preparations for the treatment of cement and concrete; binding chemicals for concrete; bonding agents for concrete; chemical preparations for use with cement and concrete; chemical

products for use as additives to cement and concrete; compositions for setting cement and concrete; compositions for preserving cement and concrete; preservatives for cement and concrete; chemical products for protecting and sealing cement and concrete; chemical reagents or mixtures, other than for medical or veterinary purposes.

Cl.4;Fuels; fuel mixtures; fuels derived from hydrogen or predominantly derived from hydrogen; fuels derived from hydrogen, or predominantly derived from hydrogen, produced by renewable energy sources; fuels derived from ammonia or predominantly derived from ammonia; fuels derived from ammonia, or predominantly derived from ammonia, produced by renewable energy sources; electricity (energy); energy derived from ammonia or predominantly derived from ammonia; energy derived from ammonia, or predominantly derived from ammonia, produced by renewable energy sources; energy derived from hydrogen or predominantly derived from hydrogen; energy derived from hydrogen, or predominantly derived from hydrogen, produced by renewable energy sources; fuel and energy derived from direct ammonia conversion, namely combustion or direct ammonia fuel cells; fuel and energy derived from indirect ammonia conversion, namely, hydrogen vector; hydrocarbon fuels; solid, liquid and gaseous fuels; electrical energy; carbon materials for use as fuels, namely, graphite or synthetic graphite; graphite as a fuel; liquid fuel; vaporised fuel mixtures; solid fuels; solid oxygen fuel; non-chemical additives for fuels; gaseous fuels; gas mixtures; liquid gases; dissolved gases; combustible gases; natural gas; solidified gas (fuel); synthetic gas (fuel); gases for use as illuminants; fuels and gases for heating and lighting purposes; fuels and gases for automobiles; illuminants and illuminating materials; biofuel; biogas; combustible fuels and gases; renewable energy, namely, solar energy, wind energy, hydroelectric and geothermal energy; geothermal steam for use as a fuel or industrial heating.

Cl.6;Common metals and their alloys; iron; steel and chrome alloys; iron alloys; ores; iron ores; iron ores, namely, magnetite ore; iron ores produced by renewable energy sources; iron ore sinter; iron ore pellets; iron ore concentrate; pig iron; pure iron; iron metallics, namely, pig iron, direct reduced iron and hot briquetted iron; steel produced by renewable energy; iron produced by hydrogen generated via water electrolysis using renewable energy; iron produced by hydrogen and ammonia; iron produced by electrochemicals; nickel; nickel produced by renewable energy; cobalt (raw); cobalt (raw) produced by renewable energy; metallic ores; ferrous ores; processed metal ores; processed iron ores; iron, unwrought or semi-wrought; metal powders; ore powders; iron powders; mineral ores in this class; common metals, unwrought or semi-wrought; alloys of common metals; ores of metal; limonite; chrome ores; steel; steel produced by renewable energy; copper; gold solder; lithium pegmatite ore; copper-porphyry; copper-molybdenum; copper-gold; metal building products.

Cl.7;Automated assembly machines; automated machines for loading materials; automated handling apparatus; mechanical control instruments (mechanisms) for the automation of machining operations; mine working machines; machines for drilling; electric drills; bulldozers; excavators; diggers (machines); drilling rigs; automated drilling machines; automated electric drills; automated excavators; automated diggers (machines); automated drilling rigs; automated concrete mixer machines; automated concrete pump machines; automated concrete spraying machines; automated apparatus and machines for use in mining; automated energy generation plants; automated electrolysis plants; industrial robots; apparatus, equipment and instruments for the generation of power; generators; electricity generators; wind powered electricity generators; electricity generation plants; electric generators; electric generator stations; machines for generating gas by electrolysis; electrolysis plants; machines for generating power; turbines, other than for land vehicles; hydraulic turbines; wind turbines; wind towers being wind turbines; wind turbine blades; turbines for power generation; power operated tools; apparatus and machines for use in mining; concrete mixer machines; concrete pump machines; concrete spraying machines; converters for steel works; electric motors; gas converters; gas condenser machines; fuel dispensing pumps for service stations and parts related thereto; refuelling stations for vehicles with hydrogen engines or propulsion; hydrogen dispensing pumps for service stations; automated control mechanisms for machines, engines or motors; electric motors for machines; electric drives for machines; transmissions for machines; power transmission systems for machines; mobile machines adapted to operate automatically; mechanical control apparatus for the automation of plant and machinery; fuel conversion apparatus for internal combustion engines; electrolysis apparatus for converting water into hydrogen and/or oxygen gas; electric engines for the propulsion of aircraft; electric engines for the propulsion of watercraft; electric drives for aircraft; electric drives for watercraft; hydrogen engines for the propulsion of aircraft; hydrogen engines for the propulsion of watercraft; engines for aircraft using ammonia as a fuel source; engines for watercraft using ammonia as a fuel source; motors and engines, except for land vehicles; engines and motors for the generation of electricity; propulsion mechanisms, other than for land vehicles; frames, mechanical connectors and peripherals for electric motors, except for land vehicles; motors,

engine, couplings and transmission components, other than for land vehicles; air compressors for vehicles; alternators for land vehicles; electronic ignitions for vehicles; engine cylinders for land vehicles; engine cylinders for vehicles; exhaust systems for vehicles; mechanical engine parts for land vehicles; fuel economisers for motors and engines; couplings, other than for land vehicles; transmission components, other than for land vehicles; pneumatic controls for machines, motors and engines; machine fly-wheels; filters being parts of machines or engines; freewheels, other than for land vehicles; driving chains, other than for land vehicles; pistons for cylinders; turbocompressors; mechanical apparatus for control of electric motors for vehicles; power management systems for land vehicles, trucks, buses, trains, light rail transit, ships and boats, namely, networks of components in the nature of pressure regulators being parts of machines; control mechanisms for machines, engines or motors; 3d printers; robots [machines]; refrigeration compressors and condensers; carbon brushes [electricity]; machine tools; apparatus and tools for use in designing batteries; apparatus and tools for use in designing fuel cells; apparatus and tools for use in designing inverters; apparatus and tools for use in designing motors; apparatus and tools for use in designing electric motors; apparatus and tools for use in servicing, repairing and maintaining batteries and battery systems; apparatus and tools for use in servicing, repairing and maintaining fuel cells and fuel cell systems; apparatus and tools for use in servicing, repairing and maintaining inverters and inverter systems; apparatus and tools for use in servicing, repairing and maintaining motors; apparatus and tools for use in servicing, repairing and maintaining electric motors; motors, engines and gearboxes for air or water vehicles; motors and related components, namely mechanical control mechanisms, torque converters and casings, for sea and air vehicles; parts, fittings and accessories for the aforementioned goods in this class; parts, fittings and accessories for motors and engines; parts for machines in this class.

Cl.9;Scientific, research, navigation, surveying, photographic, cinematographic, audio-visual, weighing, measuring, signalling, detecting, testing, inspecting, and teaching apparatus and instruments; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded and downloadable media; computer software; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for accumulating and storing electricity; data processing equipment; apparatus and instruments for controlling and monitoring unmanned vehicles; apparatus for the automated control of vehicles and machines; computer apparatus for use in the automation of machines; application software; computer programs; downloadable computer software; computer firmware; computer operating programs; computer software for computer-aided design (CAD); computer software for computer-aided engineering (CAE); computer software for computer-aided manufacturing (CAM); battery management software; computer algorithms; downloadable computer software using artificial intelligence for use in machine learning; downloadable artificial intelligence software; artificial intelligence and machine learning software; downloadable software featuring algorithms and artificial intelligence for the automation of mining machinery, industrial machinery and mining vehicles; data feeders for use with artificial intelligence; software for the supervision of equipment and installations for the production and distribution of energy; software for smart charging of electric vehicles and/or hydrogen-powered or hydrogen-propelled vehicles; computer software, computer hardware and computer firmware for the autonomous operation of vehicles and equipment, including mining haul trucks, road trains, trains, water carts, mining trucks and carts, excavators, bulldozers, diggers, machine loaders, drones and drilling rigs; downloadable and recorded computer software for the remote control of automatically guided vehicles, unmanned aircraft, drones, unmanned locomotives, and unmanned ships and barges; computer software for the remote management, maintenance, fault diagnosis, control and tracking of autonomous or semi-autonomous vehicles, including mining haul vehicles, trucks and carts, road trains, trains and drones; computer software for the remote management, maintenance, fault diagnosis, control and tracking of autonomous or semi-autonomous machines, including bulldozers, excavators, diggers, machine loaders and drilling rigs; autonomous driving control systems for vehicles; computers for autonomous operation of vehicles and equipment; autonomous navigation systems for vehicles and machines; automatic and autonomous driving control systems for vehicles; pre-collision detection and collision avoidance systems; pre-collision detection and collision avoidance systems for automated vehicles and machines; anti-collision and shockproof sensors for vehicles and automated machinery; anti-collision and shockproof radars for vehicles and automated machinery; computer hardware, software and firmware for high precision machine guidance of vehicles and machinery on mining sites; computer software for the management and operation of mining sites; computer software for the efficient assignment of manned and autonomous assets and resources on a mining site; computer algorithms for the efficient assignment of manned and autonomous assets and resources on a mining site; computer software for vehicle fleet management, including for the management of fleets of autonomous or semi-autonomous

vehicles; vehicle tracking apparatus, including in relation to fleets of autonomous or semi-autonomous vehicles; computer software for monitoring, optimising, and regulating the storage and discharge of stored energy to and from batteries and electric cells; application software for monitoring the electric charge and status of vehicles and machines powered by batteries and electric cells; downloadable and recorded computer software for monitoring energy consumption; downloadable and recorded application software for controlling and monitoring energy and utility systems, energy production plants, iron and steel production plants, cement and concrete production plants, hydrogen production plants and ammonia production plants; computer hardware, computer software and computer firmware for use in the fields of battery management/control and energy storage; computer software to enable users to capture, record, monitor, display, transmit, process and/or analyse information and data relating to energy storage and battery performance; computer software that enables users to monitor, interpret and/or model information and data relating to energy storage and battery performance; computer software for energy management; humanoid robots with artificial intelligence; electronic memories; electronic databases; computers and computer peripheral devices; computer hardware; electronic control devices for energy management; remote control apparatus and instruments; sensors; cameras; apparatus for managing energy supplies; electronic publications; electrolysers; electric power supply units; electrification systems for land, air, rail and marine vehicles comprising vehicle battery packs, inverters for power supply, electric power controllers, electrical transformers, electrical cabling, electronic power converters, electric power distribution units, battery chargers and recorded battery management software; electric cables; bundles of electric cabling; batteries; electric batteries for powering land, air or water vehicles; battery subpacks; battery chargers, including for vehicles; electric battery chargers; rapid charger units for battery electric equipment; electric batteries; high energy density energy cells; electric charging cables; electric cells; electric control devices for energy management; lithium batteries; battery management systems; battery boxes; battery cables; battery cases; battery packs; battery leads; battery plates; battery testing apparatus; battery jump starters; electric accumulators, including for vehicles; battery packs for vehicles; energy management systems; power electronics, including inverters, converters, semiconductors; power controllers; power distribution or control machines and apparatus; electrical and electronic monitoring and switching apparatus and systems; thermal management systems for batteries and inverters; mobile and static off board power units; electronic measuring, sensing, recording, signalling and warning apparatus; charging stations for electric vehicles; global positioning system (GPS) devices; photovoltaic cells and modules; electronic digital building automation systems; electronic digital automation installations for measuring building service installations; power units; voltage regulators for vehicles; acidimeters for batteries; fuel cells; inverters; fuel cells, batteries, inverters and related components for land, sea and air vehicles; fuel cells, batteries, inverters and related components for static and mobile charging devices; electrical power systems, namely, networks of components in the nature of electrical power distribution blocks which generate, supply, transmit, distribute and use electrical power; power management systems, namely, networks of components in the nature of electrical power connectors which monitor and regulate the generation, supply, transmission, distribution and use of power; fuel consumption measuring apparatus; fuel gauges; fuel regulating apparatus; fuel level indicators; fuel level indicators for vehicles; electronic safety and driver assistance systems for motor vehicles; vehicle control software; vehicle control assistance software; apparatus and instruments for controlling vehicle dynamics; torque vectoring control apparatus, software and systems; computer software and computer hardware for designing and implementing vehicle dynamics control and torque vectoring control; simulators; training simulators; simulators for simulating the operation of land vehicles; electronic sports training simulators; goggles for sports; helmets; crash helmets; protective helmets; face shields for protective helmets; protective masks; insulating gloves; anti-glare visors; anti-glare glasses; spectacle cases; spectacle frames; spectacle lenses; control apparatus for use in refrigeration; busbars, electrical connectors for electric motors, except for land vehicles; apparatus for automatic control and/or monitoring systems for electric motors for vehicles; machines indicating power usage which monitor and regulate the generation, supply, transmission, distribution and use of power and fuel; electronic control apparatus for vehicles; apparatus and tools for electronic control and monitoring of vehicle dynamics, including torque delivered to wheels or propellers; transformers and busbars for land, sea and air vehicles; parts, fittings and accessories for the aforementioned goods in this class.

Cl.12;Vehicles; apparatus for locomotion by land, air, space, rail or water; land, air, rail and marine vehicles; helicopters; trains; regenerative trains; vehicles for transport of goods by land, air, rail or water; mining vehicles; autonomous vehicles; autonomous trains; mining trucks and carts; mine carts; mine trains; mine cart wheels; autonomous mining trucks, trains and carts; electric engines for land vehicles; electric drives for land vehicles; hydrogen engines for land vehicles; engines for land vehicles using ammonia as a fuel source; traction engines; dump

trucks; camera and delivery drones; remote control vehicles (other than toys); accessories for remote control vehicles; remote control drones; accessories for remote control drones; civilian drones; military drones; photography drones; aeronautical apparatus, machines and appliances; wheeled containers for the transport of goods; traction motors for vehicles; engines for land vehicles; motors for land vehicles; motors, engines and gearboxes for land vehicles; power transmission mechanisms for land vehicles; turbines for land vehicles; masts for boats; motors, stability and traction control systems, torque converters and casings for land vehicles; vehicle centre consoles sold as parts of vehicles and which incorporate electronic interfaces; parts, fittings and accessories for the aforementioned goods in this class.

Cl.19;Materials, not of metal, for building and construction; cement; concrete; concrete aggregate; cement and concrete made by renewable energy sources; blended cements and concrete; cement and concrete mixes; premixed cement or concrete; fibre cements; magnesium cement; refractory cement; building and construction materials made of cement or concrete; cement or concrete based mixtures for use in building and construction; cement or concrete based coatings for use in building and construction; cement or concrete based materials for use in building and construction; cement or concrete based wall coatings; cement or concrete blocks; cement for blast furnaces; cement or concrete posts, slabs, blocks, wall components, wall members, tiles, cladding, panels, slopes, piles, plates, posts, sheets, beams, roof panels, roofing, mouldings, architectural products; fireproof cement coating; sheets of fibre cement for use in building; soil stabilising cement for use in agriculture; substances made of cement or concrete for filling and repair of surface defects and flaws; mixtures of cement, sand and stone material; cement or concrete products for use in buildings, gardens, landscaping, roadways, walkways, ponds, pools, water tanks; mortar; grout.

Cl.35;Business research services; business administration; business management; business advice and assistance; business consultancy; business analysis; business information services; compilation and analysis of statistical information; compilation of data about mined material and mined product statistical information; business and administrative services for operating mines, including import and export agency services and retail and wholesale of mined materials and products; business and administrative management of mines including import and export agency services and retail and wholesale of mined materials and products; business and administrative management services relating to the production of cement and concrete; business and administrative management of utility networks; business and administrative management services relating to the production of steel and iron; business and administrative management services relating to the production of energy, solar energy, renewable energy, ammonia, hydrogen, electricity, gas, fuel and water; business and administrative management of hydrogen production and generation plants; business and administrative management of ammonia production and generation plants; business and administrative management of solar power plants; business and administrative management of iron production facilities and plants; business and administrative management of steel production facilities and plants; business and administrative management of energy production and generation plants; business and administrative management of solar power, turbine power, hydropower production facilities and plants; business and administrative management of fuel production and generation plants; business and administrative management of cement and concrete production facilities; advertising; marketing; retailing and wholesaling, including in relation to fuel cells, electric motors, electric generators, machines for generating gas by electrolysis, turbines for power generation, wind turbines, wind turbine blades, hydrogen dispensing pumps for services stations and parts related thereto, electric engines, electric drives, hydrogen engines, ammonia engines, artificial intelligence and machine learning software, software for the supervision of equipment and installations for the production and distribution of energy, software for smart charging of electric vehicles and/or hydrogen-powered or hydrogen-propelled vehicles, computer software, computer hardware and computer firmware for the autonomous operation of vehicles and equipment, computer software for the remote management, maintenance, fault diagnosis, control and tracking of autonomous or semi-autonomous vehicles, unmanned aircraft, drones, unmanned locomotives and unmanned ships, autonomous driving and navigation systems for vehicles and machines, pre-collision detection and avoidance systems for automated vehicles and machines, computer hardware, software and firmware for high precision machine guidance of vehicles and machinery on mining sites, computer software for the management and operation of mining sites, computer software for the efficient assignment of manned and autonomous assets and resources on a mining site, computer software for monitoring, optimising and regulating the storage and discharge of stored energy to and from batteries and electric cells, application software for monitoring the electric charge and status of vehicles and machines powered by batteries and electric cells, application software for controlling and monitoring energy and utility systems, energy production plants, iron and steel production plants, cement and concrete production plants, hydrogen production plants and

ammonia production plants, computer hardware, computer software and computer firmware for use in the fields of battery management/control and energy storage, humanoid robots with artificial intelligence, remote control apparatus and instruments, sensors, electrification systems for land, air, rail and marine vehicles, batteries, electric battery chargers, high energy density energy cells, power distribution or control machines and apparatus, battery management systems, charging stations for electric vehicles, photovoltaic cells and modules, and power units; retailing and wholesaling of mined material and products; retailing and wholesaling of hydrogen; retailing and wholesaling of hydrogen produced by renewable energy sources; retailing and wholesaling of ammonia; retailing and wholesaling of ammonia produced by renewable energy sources; retailing and wholesaling of fuels and energy; retailing and wholesaling of fuels and energy derived from ammonia or predominantly derived from ammonia; financial modelling services; retailing and wholesaling of fuels and energy derived from ammonia, or predominantly derived from ammonia, produced by renewable energy sources; retailing and wholesaling of fuels and energy derived from hydrogen or predominantly derived from hydrogen; retailing and wholesaling of fuels and energy derived from hydrogen, or predominantly derived from hydrogen, produced by renewable energy sources; retailing and wholesaling of renewable energy, namely, solar energy, wind energy, hydroelectric and geothermal energy; retailing and wholesaling of iron; retailing and wholesaling of iron produced by renewable energy sources; retailing and wholesaling of steel; retailing and wholesaling of steel produced by renewable energy sources; retailing and wholesaling of cement and concrete and products made from cement or concrete; retailing and wholesaling of cement or concrete produced by renewable energy sources; retailing and wholesaling of autonomous vehicles, autonomous drones, autonomous mining equipment and systems for automating vehicles and equipment; the bringing together, for the benefit of others, of a variety of goods, enabling customers to conveniently view and purchase those goods; market surveys; compiling research and statistical data; computerised online ordering services; office functions; cost price analysis; public relations; import export agency services; sales promotion for others; business project management services for construction projects; business project management services for ammonia, hydrogen, hydro electrical and solar power systems and plant construction; business project management services for iron and steel production facilities and plants; business project management of mining exploration and mining extraction services; providing business information via a web site; computerised stock ordering and control services; computerised file management; foreign trade consultancy; operation of loyalty programs; personnel management; business project management of mining exploration and mining extraction services; retail sales services and marketing of shares of investment companies or other pooled investment vehicles; information, consultancy and advisory services concerning all the aforementioned.

Cl.36;Financial, monetary and banking services; financial services; financial and monetary affairs; financial asset management; financial analysis; financial intermediary services; financial investment services; financial lending; securing of funds; financial risk management; financial sponsorship; financial sponsorship of education, training, entertainment, sporting, or cultural activities; charitable fundraising; financial funding services; arranging fundraising projects; financial management; valuation services; valuation of commodities; valuation of ores and precious metals; conducting financial feasibility studies; property valuation; financial planning services; arranging finance for construction projects; arranging finance for renewable energy projects; arranging finance for infrastructure projects; arranging finance for automation projects; arranging financing for the construction, conversion, modernisation and maintenance of energy supply, generation, transportation, transmission, and distribution facilities and infrastructure; associated financing of construction projects, renewable energy projects, energy projects, infrastructure projects and automation projects; industrial financing services; industrial investment; investment trust services; loan guarantees; loan financing; project finance services; provision of investment capital; raising of capital; venture capital financing; venture capital management; management of infrastructure, energy, transition and industry funds; venture capital fund management; funding of product development; establishing mutual funds for others; intellectual property venture capital fund management services; investment services; capital investment services; capital fund management; capital fund investment; financial management of funds and investments, including in relation to infrastructure funds and private equity funds; investment services, including in relation to infrastructure funds and private equity funds; investment fund management; investment management; placement of funds; securities investment services; trust management; portfolio management and investment schemes; investment fund transfer and transaction services; financial evaluation of development costs relating to the oil, gas and mining industries; financial evaluation of development costs relating to renewable energy projects; commodities financing; conducting financial feasibility studies; crowdfunding; insurance; real estate affairs; trusteeship and fiduciary services in this class; trading and brokerage of carbon credits, securities, shares, stocks, bonds, futures and derivatives; carbon trading services; environmental brokerage

services; commodities trading (financial services); asset management; financial research, including in connection with energy commodities supply, generation, transportation, transmission and distribution facilities and infrastructure; trading, brokerage and distribution of shares of investment companies or other pooled investment vehicles and providing stock market information in relation thereto; assurance services; financial forecasting services, including in relation to the financial performance and investment potential of energy commodities supply, generation, transportation, transmission and distribution facilities and infrastructure; information, advisory and consultancy services concerning all of the aforementioned; capital investment advisory services; investment advisory services; preparation and analysis of financial reports; providing financial information; financial consultancy, advice and information; financial consulting services in relation to the financial and investment aspects of energy commodities supply, generation, transportation, transmission and distribution facilities and infrastructure.

Cl.37;Construction; construction of plants and facilities; mining extraction services; mining services; construction of mines; cement and concrete pumping services; civil and mechanical engineering construction of mines; beneath ground construction of mines; construction services; installation, repair and maintenance services; drilling; excavating; rental of excavators; charging electric vehicles; recharging of batteries and accumulators; rental of battery chargers; installation, repair and maintenance of electric vehicles chargers; installation, maintenance and repair of photovoltaic cells and modules; installation of photovoltaic power generation installations; construction, installation, maintenance and repair of solar energy apparatus and installations; construction, installation, maintenance and repair of wind energy apparatus and installations; vehicle service stations and vehicle fuelling station services; hydrogen refuelling stations; hydrogen gas refuelling for vehicles; aircraft refuelling and maintenance services, including such services involving hydrogen fuels; watercraft refuelling and maintenance services, including such services involving hydrogen fuels; recharging services for electric vehicles, electric aircraft and electric watercraft; hydroelectric power station construction services; building of railways; construction of ports and port terminals; rental of machinery for use in mining and excavating; rental of autonomous machinery for use in mining and excavating; maintenance services, namely, maintenance of mining equipment remotely, including remote monitoring of mining assets to determine faults and conduct repairs; servicing of engines, vehicles, and motors; maintenance, repair, servicing, reconditioning, restoration, inspection in the course of maintenance, care, cleaning, painting and polishing of motor vehicles; diagnostic or inspection services carried out prior to or in the course of maintenance and repair, all for motor vehicles or for parts and fittings thereof; assembly of accessories for vehicles (installation services); tuning of engines and motor vehicles; maintenance, upgrading and diagnostic repair services for in-car electronics systems or in-car entertainment systems; installation, operation, maintenance, repair and/or management of electric vehicle charging stations; automotive upgrade services namely fitting, installing and/or configuring performance improving parts, software and settings; replacement of batteries; refurbishment of engines; maintenance of batteries, fuel cells, inverters, electric motors for vehicles and electric motors via remote monitoring systems; automobile customization services (custom installation of exterior, interior and mechanical parts of vehicles); construction consulting; information, consultancy and advisory services concerning all the aforementioned.

Cl.38;Telecommunications and communication services; communication services for remote control vehicles; communication services for remote control of machines and vehicles; communication services for remote controlling of transport of materials by land, rail, air and ship; providing telecommunications connections to a global computer network; web portal services (providing user access to a global computer network); transmission of information on a wide range of topics, including online and over a global computer network; providing access to online computer databases; information, consultancy and advisory services concerning all the aforementioned.

Cl.39;Transport; transportation services; transport by land, air, road, marine, pipeline and railway; transportation of materials by land, air, ship and railway; packaging and storage of goods; packaging and storing of metals; transportation, transmission, storage, supply, distribution and delivery of hydrogen; transportation, transmission, storage, supply, distribution and delivery of hydrogen produced by renewable energy sources; transportation, transmission, storage, supply, distribution and delivery of ammonia; transportation, transmission, storage, supply, distribution and delivery of ammonia produced by renewable energy sources; transportation, transmission, storage, supply, distribution and delivery of fuel; transportation, transmission, storage, supply, distribution and delivery of fuel derived from ammonia or predominantly derived from ammonia, including ammonia produced by renewable energy sources; transportation, transmission, storage, supply, distribution and delivery of fuel derived from hydrogen or predominantly derived from hydrogen, including hydrogen produced by

renewable energy sources; transportation, storage, supply, distribution and delivery of iron ore, iron and steel; transportation, storage, supply, distribution and delivery of iron ore, iron and steel made by renewable energy sources; transportation, storage, supply, distribution and delivery of cement and concrete; transportation, storage, supply, distribution and delivery of cement or concrete produced by renewable energy sources; transportation, transmission, storage, supply and distribution of renewable energy, solar energy, wind energy, hydroelectric and geothermal energy; transmission and supply of energy and fuels through green electrons; transportation, transmission, storage, supply, distribution and delivery of ammonia energy, hydrogen energy, electricity, gas, natural gas, fuel, graphite and/or other hydrocarbon energy; transmission, storage, distribution and supply of electricity; electricity supply services; transportation, transmission and distribution of ammonia energy and hydrogen energy from production facilities services to end users through pipelines and by transport distribution services; storage, transportation and distribution of water; distribution of energy; transportation logistics services; transport of materials by land vehicles controlled remotely; warehousing services; logistics services for the storage and transport of goods; tracking of assets by computer; removal and transportation of waste; rental of autonomous vehicles, aircraft and watercraft; rental of hydrogen powered vehicles, aircraft and watercraft; vehicle fleet management services in the field of tracking and monitoring of vehicle fleets, including in relation to fleets of autonomous or semi-autonomous vehicles; information, consultancy and advisory services concerning all the aforementioned.

Cl.40;Production and generation of energy; production and generation of fuel; production and generation of hydrogen; production and generation of hydrogen produced by renewable energy sources; production and generation of ammonia; production and generation of ammonia produced by renewable energy sources; production and generation of fuel and energy derived from ammonia or predominantly derived from ammonia, including ammonia produced by renewable energy sources; production and generation of fuel and energy derived from hydrogen or predominantly derived from hydrogen, including hydrogen produced by renewable energy sources; production and generation of solar energy, renewable energy, ammonia energy, hydrogen energy, electricity, gas, water energy and natural gas energy; production and generation of renewable energy, namely, solar energy, wind energy, hydroelectric and geothermal energy; production of iron for others; production of iron for others, produced by renewable energy sources; production of iron for others, using electrochemicals; production of iron for others, using hydrogen produced by water electrolysis using renewable energy; production of iron for others, using hydrogen and ammonia; production of steel for others; production of steel for others, produced by renewable energy sources; processing, separation and fractionating liquids from natural gas; production of cement for others; production of concrete for others; production of cement for others, produced by renewable energy sources; production of concrete for others, produced by renewable energy sources; water treatment services; electricity generation; production of electricity; electricity generation plants; hire of electrical generators; rental of electricity generators; gas processing and treatment; gas processing services; processing and conversion of energy, ammonia, hydrogen, gas and fuels; processing and conversion of fuels and energy; processing and conversion of energy generated from renewable sources; waste water treatment services; water treatment services by operation of water treatment facilities; treatment of materials; heat treatment services; recycling services; recycling of chemicals, batteries, materials, waste and industrial goods; carbon offsetting services (recycling); energy recycling services; operation of hydrogen production and generation plants for others; operation of ammonia production and generation plants for others; operation of solar power plants for others; operation of iron production facilities and plants for others; operation of steel production facilities and plants for others; operation of energy production and generation plants for others; operation of solar power, turbine power, hydropower production facilities and plants for others; operation of fuel production and generation plants for others; operation of cement and concrete production facilities for others; custom manufacture of products, equipment, installations and systems associated with energy production, storage, supply and conversion; custom manufacture of products, equipment, installations and systems associated with hydrogen production, storage, supply and conversion; custom manufacture of products, equipment, installations and systems associated with hydrogen produced by renewable energy sources; custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of hydrogen made by renewable energy sources; custom manufacture of products, equipment, installations and systems associated with ammonia production, storage, supply and conversion; custom manufacture of products, equipment, installations and systems associated with ammonia produced by renewable energy sources; custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of ammonia, made by renewable energy sources; custom manufacture of products, equipment, installations and systems associated with energy production, storage, supply and conversion;

custom manufacture of products, equipment, installations and systems associated with energy produced by ammonia, hydrogen and renewable energy sources; custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of energy; custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of iron; custom manufacture of products, equipment, installations and systems associated with iron and steel production, including iron and steel produced by renewable energy sources; custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of steel; custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of iron, made by renewable energy sources; custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of steel made by renewable energy sources; custom manufacture of products, equipment, installations and systems associated with fuel production, storage, supply and conversion; custom manufacture of products, equipment, installations and systems associated with fuel produced by ammonia and renewable energy sources; custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of fuel; custom manufacture of products, equipment, installations and systems associated with cement and concrete production, storage and supply, including cement and concrete produced by renewable energy sources; moulding of cement or concrete; custom manufacture of autonomous vehicles and equipment, including, mining haul trucks, road trains, trains, water carts, mining trucks and carts, excavators, bulldozers, diggers, machine loaders, drones, and drilling rigs; custom manufacturing of systems for the automation of vehicles and equipment; custom manufacturing of batteries, fuel cells, and electric powertrains for vehicles, including mining vehicles; treatment and blending of minerals, metals and ores; metal and ore extraction and processing; ore processing, namely, beneficiation of iron ores; drilling of metals; recycling and reprocessing services of common metals and their alloys and goods made from common metals and their alloys; metallurgical processing, namely, treatment of arsenic-containing materials; metallurgical processing; lithium processing; copper processing; power generation; production of energy; hydroelectric energy production; rental of batteries; rental of electricity generators; custom manufacture of goods; custom manufacturing and assembly of goods; custom manufacture of vehicles; custom manufacture of engines and powertrains for vehicles and marine vessels; custom manufacture of composite materials; custom manufacturing for others in the field of propulsion systems for motors and engines; custom assembling of thruster units; custom building of automobile engines; custom assembling of materials for others; custom assembling of motors and engines; custom manufacture and/or assembly of carriages, locomotives, cabs or other parts of rail vehicles; custom assembly of batteries, fuel cells, electric powertrains for vehicles, including land, air, space, water or rail vehicles; custom manufacture of machines and tools with a protective surface coating; custom three-dimensional printing for others; custom manufacture of moulds for use in industry; automobile customization services being custom manufacturing and assembling of automobiles; information, advisory and consultancy services in relation to all the aforesaid services.

Cl.41;Education and training services; arranging and conducting workshops; organisation of competitions (education or entertainment); organising exhibitions for cultural or educational purposes; arranging and conducting of conferences; electronic publication of information on a wide range of topics, including online and over a global computer network; aerial photography services for analysing and diagnosing air, soil, earth, and water; information, consultancy and advisory services concerning all the aforementioned.

Cl.42;Gas and oil exploration services; geophysical exploration; mineral exploration services including iron ore exploration; mining exploration services; mining exploration of iron, copper, gold, silver, lithium, lithium pegmatite, copper-porphyry, magnetite, copper-molybdenum and copper-gold; geological prospecting; geological test drilling; surveying services; mineral and chemical analysis services; sediment sampling; engineering services; mining and mineral exploration services; scientific and technological design, consulting, and research services; scientific and technological design, research and consulting in the mining and metallurgical industries; testing, research, design and development in the field of autonomous technology; testing, research, design and development in the field of artificial intelligence; scientific and technological design, research and consulting in the field of renewable energy; chemical analysis and research; research in the field of environmental protection; testing, research, design and development in the field of hydrogen and hydrogen products, including hydrogen production and distribution; environmental surveys and testing; environmental monitoring services; advisory and research services relating to environmental pollution and protection; environmental testing; cartographic or thermographic measurement services by drone; industrial analysis, industrial research and industrial design services; mechanical research; technical research; providing non-downloadable software; providing online non-downloadable

software using artificial intelligence for machine learning; providing non-downloadable artificial intelligence software; development and testing of computing methods, algorithms and software; providing software as a service (SaaS); design and development of computer hardware and software; computerized data storage services; providing software as a service (SaaS) for the supervision of equipment and installations for the production and distribution of energy; providing online non-downloadable software for the remote control of automatically guided vehicles, unmanned aircraft, drones, unmanned locomotives, and unmanned ships and barges; providing online non-downloadable software for the remote management, maintenance, fault diagnosis, control and tracking of autonomous or semi-autonomous vehicles, including mining haul vehicles, trucks and carts, road trains, trains and drones; providing online non-downloadable software for the remote management, maintenance, fault diagnosis, control and tracking of autonomous or semi-autonomous machines, including bulldozers, excavators, diggers, machine loaders and drilling rigs; providing online non-downloadable software for vehicle fleet management, including for the management of fleets of autonomous or semi-autonomous vehicles; providing online non-downloadable software for monitoring, optimising, and regulating the storage and discharge of stored energy to and from batteries and electric cells; providing online non-downloadable software for monitoring the electric charge and status of vehicles and machines powered by batteries and electric cells; providing online non-downloadable software for monitoring energy consumption; providing online non-downloadable software for energy management; providing online non-downloadable software for the management and operation of mining sites; providing online non-downloadable software for high precision machine guidance of vehicles and machinery on mining sites; providing online non-downloadable software for the efficient assignment of manned and autonomous assets and resources on a mining site; providing online non-downloadable software for controlling and monitoring energy and utility systems, energy production plants, iron and steel production plants, cement and concrete production plants, hydrogen production plants and ammonia production plants; providing temporary use of non-downloadable software for use in the fields of battery management/control and energy storage; providing temporary use of non-downloadable interface software for use in connection with battery management and control systems; software as a service [SaaS] featuring software for use in the fields of battery management/control and energy storage; platform as a service [PaaS] featuring software platforms for use in the fields of battery management/control and energy storage; providing temporary use of non-downloadable software to enable users to capture, record, monitor, display, transmit, process and/or analyse information and data relating to energy storage and battery performance; providing temporary use via license of downloadable software to enable users to monitor, interpret and/or model information and data relating to energy storage and battery performance; computer programming services; architectural or engineering project management services; computer software project management services; design, development, installation, integration, testing, maintenance, support, repair, updating, customisation and upgrading of computer software; design, development, installation, integration, testing, maintenance, support, repair, updating and upgrading of computer software for automated vehicles and machines; software engineering services; design, development, installation, integration, testing, maintenance, support, repair, updating and upgrading of computer software for aircraft, aerial vehicles, space vehicles, land vehicles, amphibious vehicles, marine vehicles, ships, boats, and submarines; research, design, development and customisation of computer firmware, computer hardware, computer systems and computer architectures; information technology consultancy services; professional advisory services relating to computer software; professional consultancy services relating to computer programming; technical consultancy services relating to computer programming; testing of computer software; design and development of computer software for computer-aided design (CAD), computer-aided engineering (CAE) and computer-aided manufacturing (CAM), and information technology services; computer technology consultancy; operational support services for computer software; design and development of energy and power management systems; design, development and engineering services, and consultancy services relating thereto, for batteries, fuel cells, inverters, electric motors for vehicles and electric motors; software development services for management, control and/or monitoring systems for batteries, fuel cells, inverters, electric motors for vehicles and electric motors; scientific, technological and research services in the fields of battery management/control, monitoring and energy storage; design and development of hardware, software and firmware for use in the fields of battery management/control and energy storage; design and development of battery management and control systems; consultancy services relating to the design and development of batteries; technological consultancy services relating to battery lifetime and battery lifetime extension; technological consultancy services relating to battery management/control and energy storage; technical data analysis services; electronic data storage; remote operation in the field of mining, including remote control and remote monitoring of mining assets; scientific and technological

design, consulting, and research services relating to mining, including autonomous mining; energy use and conservation consultancy services; design and development of vehicles; design and development of vehicle parts, fittings and components; design of vehicle engines; design and development of hybrid propulsion systems; design and development of electric or alternative propulsion systems; design and development of kinetic energy storage and recovery systems; design and development of motors; design and development of computer hardware for the manufacturing industries; design and development of software for computer-aided design (CAD), computer-aided engineering (CAE) and computer-aided manufacturing (CAM); design and development of mechanical and micromechanical components; design and development of engineering products; design, development and deployment of vehicle dynamics control systems including torque vectoring; product development; product development consultancy for inventors in the field of engineering; research and development of new products for others; styling [industrial design]; design, engineering and consultancy services related thereto for frames, busbars, connectors and peripherals for batteries, fuel cells, inverters electric motors for vehicles and electric motors; design of yachts, boats and ships; automotive design; furnishing design services for the interiors of automobiles; packaging design; design and testing for new product development; design of manufacturing methods; quality control and authentication services; laboratory testing services; testing of vehicles; engineering testing; quality testing services; testing of equipment; materials testing; testing services relating to engines, batteries, fuel cells, powertrains, vehicle control systems for land vehicle, aircraft, rail vehicle and marine vessels; vehicle roadworthiness testing; analysis and testing services relating to electrical engineering apparatus; air, sea and land vehicle design, testing and certification services; safety technology services relating to land vehicles; design, development, integration, testing and upgrading of aircraft, land vehicle and marine vehicle simulators; advisory services relating to design engineering; construction designing; consultancy in the field of energy-saving; cloud storage of battery condition and performance data; machine condition monitoring; monitoring of network systems; monitoring services for batteries, fuel cells, inverters, electric motors for vehicles and electric motors; software maintenance, upgrading and diagnostic repair services for in-car electronics systems or in-car entertainment systems; information, advisory and consultancy services in relation to the aforementioned.
