assays comprising reagents for concentration, purification and detection of viruses; media for use in chromatography [not medical]; chemicals for use in chromatography, other than medical and veterinary; chromatography separation media for separation of a mixture into components; chemicals, namely, buffers and buffer solutions for scientific, industrial or research use; chemicals and resins for use with the purification of pharmaceuticals, viruses, viral particles, cells, cell products, proteins, antibodies, antibody fractions, and nucleic acids, not for medical and veterinary use; chromatography chemicals, namely, resins and media for large scale purification of monoclonal antibodies; chromatography membranes used for biopharmaceutical processing; ion exchange substances; ion exchange resins; electrophoreses gels; resins intended for use in separation or fractionation processes using chromatography; cleaning and sterilizing products for resins, in particular ion exchangers; chemical products and fluids, especially eluents for use in chromatography, in particular for use in preparative chromatography; reagents for industrial purposes; reagents for scientific purposes; reagents for research purposes; reagents for medical research; reagents for testing water; chemical diagnostic reagents for industrial use; diagnostic reagents and excipients, except for medical or veterinary use; diagnostic reagents for sale in kit form, other than for medical use; biomolecule labelling kits comprising reagents for use in scientific research; chemical reagent mixtures in kit form, other than for medical or veterinary use; chemical products for laboratory analysis; biological assays and kits for use in fields of biological and diagnostic testing for industrial, scientific and research use; diagnostic reagents for in vitro use in biochemistry, clinical chemistry and microbiology; in vitro diagnostic reagents for scientific purposes; laboratory assay kits; enzymes for industrial purposes; enzymes for scientific purposes; enzymes for the biotechnological and biopharmaceutical industries; enzymes for use in the manufacture of pharmaceuticals and biopharmaceuticals; enzymes for the food industry and beverage industry; enzymes for use in water treatment; enzymes for use in diagnostic tests; biochemical catalysts; nucleases; proteins for industrial purposes; proteins for use in science; proteins for use in manufacture; albumin; raw proteins; bacteriological preparations except for medical or veterinary purposes; bacteriological preparations used in water treatment, purifying water and industrial effluent treatment; chemicals for the manufacture of pharmaceutical products; chemical additives used in the manufacture of pharmaceutical preparations; albumin used in industry for the preparation of pharmaceutical compositions, reagents, and diagnostic reagents; antioxidants for use in the manufacture of pharmaceuticals; preservatives for use in the pharmaceutical industry; stabilizers; adjuvants, other than for medical or veterinary purposes; chemical and biochemical products for

scientific use and for research in the field of genetics, for the transfer of biological molecules into living cells, integration of foreign nucleic acids into the genome of living cells; chemical and biochemical products for scientific use and for research in the field of genetics, for the production of transfected cells, cell lines, recombinant proteins, peptides, antibodies, viruses and/or pseudo-viral particles; preparations, agents and reagents for scientific use and for research for genetic diagnosis; chemical or biochemical test kits for scientific use or for research containing preparations, agents and reagents in the field of genetics, and for the transfer of biological molecules into living cells, integration of foreign nucleic acids into the genome of living cells; chemical or biochemical test kits for scientific use or for research containing preparations, agents and reagents in the field of genetics, for the production of transfected cells, cell lines, recombinant proteins, peptides, antibodies, viruses and/or pseudo-viral particles; anti-freezing preparations; freezing agents for use in freezing biological specimens; blood grouping reagents other than for medical use; biological activators.

Cl.5;Pharmaceuticals, medical and veterinary preparations; disinfectants; chemicals and biochemicals for medical and clinical use; chemical preparations for medical purposes; chemical preparations for pharmaceutical purposes; chemical preparations and reagents for veterinary purposes; sanitary preparations for medical and veterinary purposes; biological preparations for medical, pharmaceutical and veterinary purposes; biochemical preparations for medical, pharmaceutical and veterinary purposes; albuminous preparations for medical and veterinary purposes; protein supplements for pharmaceutical, medical and veterinary purposes; albuminous preparations for pharmaceutical, medicinal and veterinary purposes; recombinant albumin preparations for pharmaceutical, medical and veterinary purposes; chemicals for use in performing nucleic acid polymerase chain reactions, for medical and veterinary use; reagents for medical diagnostic, clinical, or medical laboratory use, namely real-time PCR reagents, including analyte specific reagents, general purpose reagents, and mixes, for performing real-time PCR assays; medical diagnostic chemical reagents and preparations for use in polymerase chain reaction analysis for medical use; fluorescent chemicals for medical use; medical diagnostic chemical reagents and preparations for use in the detection, amplification, analysis, quantification and labelling of nucleic acids for medical use; clinical medical reagents; clinical diagnostic reagents; biological preparations and reagents for medical and therapeutic purposes; reagents for pharmaceutical, medical and veterinary use; diagnostic preparations and materials; diagnostic reagents for medical use; diagnostic test reagents; diagnostic preparations for medical purposes; diagnostic preparations for veterinary purposes; diagnostic biomarker reagents for medical, pharmaceutical and veterinary purposes; chemical or biochemical reagent test kits for medical and clinical use including preparations, agents and reagents; diagnostic testing reagent kits consisting of diagnostic reagents for clinical or medical laboratory use; diagnostic test strips for medical purposes; reagents and assay systems in the form of kits for microbiological analysis; kits for cleaning and/or separating nucleic acids for clinical or medical laboratory use; protein microarrays; biological, chemical and pharmaceutical preparations for medical, therapeutic, pharmaceutical and veterinary purposes, in particular fermentation media, proteins, cell lines and cell expression systems; chemicals and biochemicals for medical and clinical use in the field of genetics, for transferring biological molecules into living cells, integrating foreign nucleic acids into the genome of living cells and producing transfected cells, cell lines, recombinant proteins, peptides, antibodies, viruses and/or pseudo-virus particles; preparations, agents and reagents for medical use for research and for genetic diagnostics; assay kits and chemical and biochemical test kits for medical and clinical use in the field of genetics including preparations, agents and reagents for transferring biological molecules into living cells, integrating foreign nucleic acids into the genome of living cells and producing transfected cells, cell lines, recombinant proteins, peptides, antibodies, viruses and/or pseudo-virus particles; cell cultures for medical and veterinary purposes; bacteriological culture mediums; serums; pharmaceutical preparations for activating cellular function; cellular function activating agents for medical purposes; cellulose for pharmaceutical purposes; stem cells; stem cells for medical purposes; cultures for medical use; cultures of microorganism for medical use; medical products to support the growth of stem cells; sterilizing preparations; filtering preparations, materials and media for pharmaceutical, medical and sanitary purposes; air purifying preparations.

Cl.6;Metal containers for storage or transport; containers and pallets of metal for transport and packaging, of metal; metal containers for holding and transporting flexible pouches for biological, medical or pharmaceutical liquids; metal pallets; metal racks for storage of containers filled with biopharmaceutical materials; metallic frames for supporting disposable containers for biopharmaceutical materials.

Cl.7;Machine tools, power-operated tools; pumps; industrial robots; chemical handling machines; lifting and hoisting equipment, elevators and escalators; opening and closing mechanisms; packaging machines; packaging machines, namely, liquid container fillers; robotic apparatus for handling materials; filling machines; robotic filling machines; machines for filling containers in the nature of disposable plastic bags with biopharmaceutical liquids; machines and machine tools for treatment of materials and for manufacturing; bioreactors for use in manufacturing; machines for cultivating micro-organisms, cells and other biological material; filtering machines, separators and centrifuges; filtering machines for chemical processing; filters for machines; milk filtering machines; beverage filtering machines; separating machines for chemical processing; vessel holders for centrifuges, centrifuge beakers; centrifugation chambers; housings for machines; filter housings being parts of machines; chemical industry machinery; mixing machines; mixing machines for mixing and homogenizing liquids in the pharmaceutical and chemical industries; agitators (machines); vibrators for industrial purposes; electric welding machines for welding plastics; electric welding machines for sterile connection of plastic tubes, pipes, bags, and containers; plastic cutting tool for sterile separation of plastic tubes, pipes, bags, containers; heat sealing machines for sealing plastic tubes that are used in the laboratory, pharmaceutical, medical and biomedical fields; dispensing machines; dispensing machines for emptying containers filled with biopharmaceutical liquids; control devices for machines.

Cl.9;Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus, instruments and cables for electricity; apparatus and instruments for accumulating and storing electricity; apparatus and instruments for controlling electricity; electrical and electronic components; scientific and laboratory devices for treatment using electricity; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded and downloadable media, computer software, blank digital or analogue recording and storage media; databases; downloadable publications, downloadable instruction manuals; application software; software for monitoring, analysing, controlling and running physical world operations; system and system support software, and firmware; virtual and augmented reality software; digital twin operating system software; digital twin software; software for digital twins, notifications and calibration functions for improving sample safety in laboratories, the efficiency of a laboratory and the reproducibility of laboratory processes; web application and server software; software, in particular for controlling apparatus, equipment and installations, for controlling processes, and for chemometric applications; computer software for operating and controlling industrial robotic machinery, biotechnological and chemical machinery for use in industrial manufacturing processes; computer software for operating and controlling laboratory devices; software for machines and apparatus for cultivating micro-organisms, cells or other biological material, mixing machines, scientific and laboratory instruments, apparatus and devices; computer software for analyzing, collecting, storing, documenting and visualizing data relating to manufacturing processes for the bio-pharma, pharmaceutical, chemical, food and beverage, petrochemical, paper, steel and mining, flat panel and fragrance industries; computer software for analyzing, collecting, storing, documenting and visualizing data related to setting up scientific experiments and analysis of the results of scientific experiments; optical devices; computers and computer peripheral devices; display devices, image capturing and developing devices; communications equipment; data processing equipment and

accessories (electrical and mechanical); data storage devices and media; scanners; printers; peripheral devices for computers, laboratory equipment and manufacturing machines, in particular printers, data input, data display, data transfer, data reproduction, data storage and control apparatus; measuring, detecting, monitoring and controlling devices; controllers and regulators; data loggers and recorders; measuring devices; distance and dimension measuring instruments; electricity measuring instruments; speed measuring instruments; temperature measuring instruments; meters for measuring gas composition and gas flow; flowmeters; cytometers, flow cytometers; spectrometers; fluorescence spectrometers and near infrared spectrometers, and apparatus for turbidity measurement; refractometers; PH meters; moisture meters; measuring apparatus using the principle of high-frequency technology, including microwave resonance technology; measuring apparatus for analysing enzymatic reactions; electrochemical measuring apparatus; conductivity measuring apparatus; apparatus for analysing biomass, pressure and temperature; ultrasound measuring apparatus for flow analysis; apparatus for measuring density; temperature controllers for controlling the temperature of biopharmaceutical materials held in containers designed for cryopreservation; surface plasmon resonance (SPR) spectrometers; spectrometer using bio-layer interferometry for determination of the affinity, kinetics, and concentration of molecules, antibodies or proteins; interferometers; biofiber optic instruments in the nature of biosensors; weight measuring instruments; weighing apparatus and instruments and parts therefor, scales of all types, including precision balances; mass comparators; load cells for use in industrial and laboratory weighing systems; mechanical, electric and electronic components for scales and weighing installations; testing weights; sensors, detectors and monitoring instruments; testing and quality control devices; electronic testing apparatus for air and liquid filters; scientific research and laboratory apparatus, educational apparatus and simulators; DNA microarrays; protein biochip microarrays; microarray slides; scientific instruments, apparatus and equipment, including laboratory equipment; microscopes, probes for scientific purposes; laboratory apparatus and instruments; chromatographs for scientific or laboratory use; chromatography apparatus and instruments; chromatography columns; chromatography columns for scientific and laboratory use; preparative chromatography apparatus and instruments;; software for piloting separation, purification or fractionation processes by chromatography; software for piloting separation or fractionation processes by preparative chromatography; laboratory apparatus for use in chromatography; laboratory apparatus and chromatography systems for use in protein purification; liquid chromatography injectors for scientific and laboratory use; chromatography columns and apparatus for packing chromatography columns for laboratory use; laboratory apparatus and instruments for use in science, research and industry, namely, for use in separating biological and chemical products; autosamplers used for sample preparation for laboratory use, sample applicators for use with the application of sample solutions to a chromatography tube for laboratory use; data storage devices for use in chromatography; apparatus for analyses for non-medical use; apparatus, devices and installations for controlling water quality;; microplate readers; microplate stackers; microplate washers; microtiter plates; devices for reading microtiter plates; laboratory apparatus for determination of the affinity, kinetics, and concentration of molecules, antibodies or proteins; biosensors; biosensors for analyzing chemical and biological samples for measuring the presence or absence, concentration, association, affinity, binding rates, specificity and functional properties of biomolecules, namely, chemical compounds, sugars, peptides, proteins, oligonucleotides, dna, rna, aptamers, cells, virus, bacteria, antibodies and antibody fragments; laboratory filters; filter diaphragms for laboratory use; filtering units for laboratory use; filters for blood and blood components for laboratory use; laboratory apparatus for collecting and filtering airborne germs and parts therefor; containers, housings, filter housings, and filtering installations of stainless steel for laboratory, scientific, and biopharmaceutical applications, and parts therefor; liquid filter units, namely, pre-assembled filter cartridges, plastic hoses and hose connectors, sold as a set, for laboratory use; scientific apparatus, instruments and equipment for use in analysis and research of medical and pharmaceutical preparations and for treating living organisms, in particular laboratory fermenters, mechanical shakers, homogenizers, scientific apparatus having freeze-drying function, electrofusion and transfection apparatus, electrophoresis apparatus, thermostats and scientific apparatus having cooling function; disposable containers for cryopreservation of biopharmaceutical materials; protective devices and frames for use with disposable containers for biopharmaceutical materials; laboratory and scientific storage containers for biopharmaceutical material having chilling function; plastic bags, not for medical purposes, namely for cell cultivation; laboratory, biological pilot plant and biological production equipment for use in pharmaceutical and biological product laboratories and testing facilities, namely, plastic bags for use in holding biological material and related reagents; laboratory equipment, namely, liners of plastic for tanks used in holding biological material and related reagents; laboratory apparatus for freezing and thawing in clean room environments and cryopreservation; apparatus for breeding cell cultures (not for medical purposes); apparatus for cultivating micro-organisms, cells and other biological material; cell culture vessels with sensors; laboratory vessels and laboratory apparatus for cultivating, incubating, dyeing and analysing biological materials, including microorganisms, cells and tissue; laboratory shakers; platforms for laboratory shakers, in particular fitted with measuring stations for logging physical data and/or with data interfaces for exchanging data with external apparatus; laboratory centrifuges; vessel holders for laboratory centrifuges, laboratory centrifuge beakers; laboratory centrifugation chambers; apparatus for mixing biopharmaceutical media, in particular by vibration, rotation and wave motion; dosing devices, in particular single-use devices; automated liquid dispensing machines; dosage dispensers, liquid dosage devices that measure the amounts to be dispensed; liquid handling apparatus of plastic, namely, pre-assambled tubes, pipes, bags, containers and filters for pharmaceutical or biotechnology applications; pipettes, multichannel pipettes, pipette controllers, pipette tips, filters for use in pipettes or pipette tips; pipette stands; charging stations for pipettes; pipette accessories; syringes for use with pipettes; dispensers, in particular being attachments for containers; incubators; laboratory live-cell monitoring, imaging and analysis apparatus and software; laboratory cell and bead analysis apparatus; laboratory virus quantification apparatus; laboratory apparatus for antibody discovery and cell line development; laboratory apparatus for patch-clamping cells; laboratory apparatus for quantifying proteins, peptides and DNA; micro-array scanners; disposable plastic bioreactors for cell culture; bioreactors for laboratory use; bioreactors for cell culturing for scientific research; disposable plastic bioreactors for cell culture.

Cl.10;Surgical, medical, dental and veterinary apparatus and instruments; medical apparatus and instruments; diagnostic, examination and monitoring equipment; chromatographs for medical use; auxiliary medical diagnostic devices, namely electrophoresis cellulose acetate films, cellulose nitrate filters for electro-blotting, polyamide films for DNA bonding, holders for nutritive media, nutritive cardboard discs, membranes for antibody analysis, antigen analysis and antibody cleansing; diagnostic membranes; filters for use in the field of medicine; filters for medical diagnostics; filter capsules for pharmaceutical and medical purposes; bacterial filters for medical use; chromatography apparatus for medical use; chromatography columns for medical use; chromatographic columns for analytical chromatography, for medical use; chromatography instruments for medical use; chromatography plates for medical use; containers specifically adapted for medical and diagnostic use; disposable containers designed for cryopreserving biopharmaceutical materials for medical, diagnostic and clinical purposes; protective rigid housing structures specifically adapted for receiving disposable containers used in cryopreserving biopharmaceutical materials for medical and diagnostic purposes; support frames for disposable containers used in cryopreserving biopharmaceutical materials for medical, diagnostic, and clinical purposes; flexible plastic bags for biological, medical or pharmaceutical liquids; medical plastic bags designed to hold medical and pharmaceutical liquids; bags for medical purposes, namely for cell cultivation; protective devices in the nature of sleeves and frames for use with disposable containers for cryopreservation of biopharmaceutical materials; containers for biopharmaceutical liquids, non-metallic; disposable containers made of plastic for storage and transport of frozen biopharmaceutical materials; sample bag cover specifically adapted to disposable containers for biopharmaceutical materials.

Cl.11;Apparatus and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating, water supply and sanitary purposes; cooking, heating, cooling and preservation equipment, for food and beverages; cooling apparatus and appliances; containers with temperature regulators for chilling biopharmaceutical materials; drying installations; evaporators, dryers, filters and membranes as parts of industrial installations for the treatment and/or the purification of water; filters, including filter apparatus and installations, namely filters for the treatment, purification, and sterilization of biopharmaceutical liquids, water, air and gas for industrial use; filter installations of stainless steel, namely filtering installations for biopharmaceutical liquids, water, air, and gas for industrial use; filter modules, including cross-flow filtration cassettes, filter capsules, filter cartridges, filter winding modules, membranes, membrane filters, membrane adsorbers, adsorbers, filter fleeces, and filter matting, including all of the aforesaid goods being parts of air, gas, water or biopharmaceutical liquid filtering systems or being independent air, gas, water or biopharmaceutical liquid filters; air, gas, water and biopharmaceutical liquid filtration installations for environmental technology, biotechnology, the pharmaceutical industry, the cosmetic industry, the chemical industry, and for the food and drinks industry; apparatus for removing substances from fluids; separators for the cleaning and purification of liquids; heating, ventilating, and air conditioning and purification equipment (ambient); industrial treatment installations and filters for the purification and processing of biopharmaceutical liquids, water, air, and gas for industrial use; bioreactors; fermentation installations; apparatus and installations for the purification of water, liquids or gases in the pharmaceutical, medical and laboratory fields; apparatus and installations for chemical and biopharmaceutical processing, including distillation apparatus, evaporators, heat exchangers, filtration units, and sterilization systems for industrial purposes; chromatography apparatus for industrial use; chromatography systems for use in separation and purification of pharmaceuticals, viruses, viral particles, cells, cell products, proteins, antibodies, antibody fractions, and nucleic acids, all for industrial use; refrigerating and freezing equipment; refrigerators, cooling apparatus and freezers for medical storage purposes; refrigerating containers; refrigerated shipping containers; temperature controlled shipping containers; refrigerated medical container for storage, transportation and cooling of medicines and pharmaceuticals; freezing installations and machines for freezing biopharmaceutical materials; laboratory freezers for cryogenic preservation; insulated refrigerated or heated containers for the transport and storage of temperature sensitive goods; thermally insulated cooling or refrigerated storage units for disposable containers for cryopreserving biopharmaceutical materials; non-metal and non-paper insulated refrigerated shipping containers for transporting frozen materials; non-metal and non-paper insulated shipping containers for transporting frozen materials; heaters and heating systems for thawing frozen biopharmaceutical materials; cooling and heating systems for processing biopharmaceutical materials; refrigerated and chilling containers equipped with temperature controllers for biopharmaceutical materials; sanitary installations, water supply and sanitation equipment; sterilization, disinfection and decontamination equipment; water purification, desalination and conditioning installations; equipment for de-ionising water, equipment for extracting super-purified water, and components for the aforesaid equipment; apparatus for depyrogenating solutions; water purification installations and apparatus, namely reverse osmosis units, membrane filtration units, and water filtering apparatus, including ceramic or carbon, alloy membranes and parts thereof.

Cl.12;Trolleys for transporting disposable containers for biopharmaceutical materials; lifting cars.

Cl.16;Packaging materials of plastic; flexible pouches of plastic for storing and transporting biopharmaceutical liquids; phase separating paper; chromatography paper, polyethylene-backed absorbent paper, and filter paper; lens cleaning tissue paper; bags and liners of plastic for use in holding biological material and related reagents; filter paper; creped wood pulp paper filter that is acid and alkali resistant for laboratory and industrial purposes; filter paper; glass microfiber filter papers; polyethylene-backed absorbent paper for use as a protective cover for laboratory work surfaces, as an absorbent liner for animal cages, as a liner for humidity chambers; marketing, scientific and instructional material; instruction manuals; printed matter relating to purification in life sciences.

Cl.17;Flexible pipes, tubes, hoses and fittings therefor (including valves), and fittings for rigid pipes, all non-metallic; insulation and barrier articles and materials; seals, sealants and fillers; elastomers; resins in extruded form; semi-worked plastic substances; semi-processed synthetic filtering materials.

Cl.20;Containers, not of metal, for storage or transport; containers, not of metal [storage, transport], and closures and holders thereof, not of metal; containers for biopharmaceutical liquids, non-metallic; packaging containers of plastic; non-metal and non-paper insulated shipping containers for transporting frozen materials; plastic shipping and storage boxes; crates and pallets, non-metallic; protective rigid housings made of plastic adapted for disposable nonmetallic storage and transport containers for biopharmaceutical materials; non-metallic frames adapted for disposable non-metallic storage and transport containers for biopharmaceutical materials; covers specifically adapted for disposable non-metallic storage and transport containers for biopharmaceutical materials.

Cl.37;Repair, maintenance, installation, and servicing of scientific and bioprocessing apparatus and instruments; installation, maintenance, repair and servicing of laboratory apparatus, mechanical equipment and devices, weighing apparatus and instruments, electronic precision balances, scientific apparatus and instruments, laboratory equipment; installation, maintenance, repair and servicing of electronic filter testing apparatus, water treatment apparatus and apparatus for treating aqueous solutions in laboratories, equipment for deionising water, equipment for depyrogenating aqueous solutions, filter equipment, filter installations, filter modules, fermenters, bioreactors; services for installing, maintaining (servicing) and repairing chromatographic apparatus and instruments, preparative chromatographic apparatus and instruments and chromatography columns; services for installing, maintaining (servicing) and repairing filtration machinery, equipment and installations for industrial installations, especially for ultrafiltration and microfiltration.

Cl.40;Treatment and transformation of materials, namely, custom manufacture of pharmaceuticals and of biopharmaceuticals, and providing information in the field of custom manufacturing of pharmaceuticals; treatment and transformation of materials, namely, custom biomanufacturing for others, namely, custom manufacturing of pharmaceuticals using biological organisms in the manufacturing process; treatment and transformation of materials, namely, cryogenic preservation; custom manufacture and assembly services; 3D printing services; custom manufacturing services of cell culture in the life sciences field.

Cl.41;Education, training and teaching services; providing information in the fields of education and training; teaching and training in the fields of biology, medicine, biologicals, biopharmaceuticals, pharmaceuticals and chemical analysis; teaching and training in the fields of vaccines, growth factors, immune modulators, monoclonal antibodies, cells, cell therapies, tissues, proteins, recombinant proteins, nucleic acids, gene therapies, products derived from living culture systems, products derived from human blood, products derived from plasma; technical training relating to medical, biological, biopharmaceutical, pharmaceutical and chemical analysis; organisation of conferences, courses, trainings, seminars; arranging and conducting of conferences and seminars, in particular on product applications and management training; conducting training and seminar programs for the pharmaceutical industry, and for the food and drink industries, in particular in the fields of quality systems, validation of products and processes; organisation of conferences in the fields of medical, biological, biopharmaceutical, pharmaceutical and chemical research and development; publication services; publication of scientific research; publication of the results of clinical trials for pharmaceutical preparations;

instruction services; provision of medical, biological, biopharmaceutical, pharmaceutical and chemical instruction courses; information, consultancy and advisory services for the aforementioned services.

Cl.42;Scientific and technological services and research and design relating thereto; industrial analysis, industrial research and industrial design services; quality control and authentication services; design and development of computer hardware and software; information technology services; design and development of computer programs; software development; software installation; computer software maintenance; computer software technical support services; software design, computer software design in the field of scientific research and genetic analyses; consultancy with regard to the design of networks; software consultancy services; software as a service (SaaS); science and technology services; laboratory services; laboratory analysis, laboratory research; laboratory testing services; scientific investigations for medical purposes; medical and biological laboratory services; research and development of new products for others; biological research; chemical research; research and analysis of medical reagents; medical research; clinical trials; chemistry services; services of chemical, biological and/or biochemical laboratories; research and development in the field of chemistry, biology, biochemistry and biotechnology; analysis in the field of chemistry, biology, biochemistry and biotechnology; research and development services relating to biological, pharmaceutical, biopharmaceutical, chemical and medical products; research, development and analysis services relating to pharmaceutical and medicinal goods including albumin, chemicals, peptides, proteins, antibodies, cells, nucleic acids, viruses, live viruses, live-attenuated viruses, attenuated viruses, virus-like particles and viral vectors; services of a chemical and/or biological laboratory; development and analysis of chemical, pharmaceutical, biopharmaceutical, chemical and medical production methods; development of processes for the production of proteins; performing biological and chemical analysis and research services; performing biological and chemical analysis of amino acids in protein samples; biological and chemical laboratory services, in particular scientific support of production processes relating to biological preparations and pharmaceuticals; biological research and analysis; chemical research and analysis, medical research and analysis; cell line development; consultancy with regard to the development of processes for the production of proteins and the development of cell lines; cell line and cell bank design and development; biosimilar analysis and testing services; cell bank characterization; studies, design of new products and development (design) in the field of chromatography; design of equipment in connection with mixture fractionation by chromatographic procedures; research in the field of chromatography; feasibility studies, technological audits; researching all chemical products, especially products and materials or equipment used in separation processes; research and development in the field of membranes and supports for ultrafiltration, nanofiltration, and tangential microfiltration; studies on and development of apparatus for separation or fractionation using chromatography, pharmaceutical engineering work; technical and scientific research and development of new products, especially for the food and pharmaceutical industries; conduct of chemical synthesis for third parties; synthesis of life science products for third parties from the pharmaceutical, agricultural and veterinary sectors; synthesis of intermediary products, especially organic intermediary products for industrial purposes, especially for the pharmaceutical and agricultural industries; synthesis of hazardous products, synthesis of substituted aromatics and chiral molecules, especially synthesis of the products for third parties; galenic research, in particular for third parties; scientific and technological services for the pharmaceutical industry, namely research, development, and consultancy in the field of galenic formulations, in particular for third parties; services in connection with air and water quality control; technological consulting in water treatment and water purifying, technological consulting in industrial effluent treatment; chemical, biochemical and genetic analyses; structural and functional analysis of genomes; analyses in the field of molecular biology; scientific research and analysis; scientific analyses and research in the field of transfection; consulting in relation to research and development of transfections agents and agents, reagents and chemicals and biochemicals used in the field of genetics; development of pharmaceutical products; development of transfection agents; development of new products in the field of gene therapy; computer-aided scientific testing; laboratory research in the field of genetics; conducting clinical trials for pharmaceutical and genetic products; research in the field of medicines; scientific research in the field of genetics and genetic engineering; scientific research for medical purposes; services of a genetic research laboratory; research and development of new products for third parties; testing, authentication and quality control; inspection and test of product quality; scientific testing services; calibration services for monitoring test agents, calibration of pipettes, calibration of measuring apparatus within the framework of legal metrology; testing, including conducting tests to validate laboratory apparatus, filter systems, bioreactors and fermenters and biosensors for quality control for laboratories and manufacturers of pharmaceutical products; conducting integrity tests for filter installations; testing of cell banks, virus banks, raw materials of animal origin, bulk harvest and clinical batches regarding contamination with bacteria, fungi, yeasts, mycoplasma, adventitious viruses and any other potential contaminants; biosafety testing services; biosafety testing services for the pharmaceutical, biotech and vaccine sectors; systems consultancy, namely computer systems analysis, filter systems analysis and bioreactor analysis; technological consultancy with regard to manufacture and scale alteration of systems from computer, filter and/or bioreactor installations with regard to the inter-compatibility of these installations; technical design, technical surveying, technical testing and technical project planning for validation of research and manufacturing processes for the pharmaceutical industry, and for the food and drinks industries; Testing and evaluation of goods, installations, and processes to determine conformity with technical, certification and quality standards; diagnostic services in field of pharmaceutical, biopharmaceutical, chemical, and medical products and processes, namely, identifying and resolving technical problems during production and development; certification [quality control]; certification [quality assurance]; process monitoring for quality assurance; cell quality control services; technological consultancy and engineering consultancy, technological consultancy and assistance in the development and manufacture of medicines and pharmaceutical products as well as technological and scientific analysis and new product development services; providing information, advisory and consultancy services relating to the aforementioned services.

Cl.45;Legal services; regulatory compliance auditing; advisory services relating to regulatory affairs; information and advisory services relating to compliance with manufacturing standards and regulatory requirements; reviewing standards and practices to assure compliance with laws and regulations; information, consultancy and advisory services for the aforementioned services.
